PROJECT: "11-STERONE™ Analysis"
RTP Labs ID: 09-353-4

Presented below are the laboratory results of the analyses for the sample received on October 21, 2009. We received one sealed bottle of 11-STERONE™, 75 capsules. Five capsules were randomly selected and individually weighed, combined and the amount equal to one capsule was extracted and analyzed by GC/MS for the listed ingredient. A reference standard was used for the GC/MS analysis.
